Question Description

Find the Missing value?

- A** 75°
- B** 39°
- C** 45°
- D** 120°
- E** None of the above

Correct Answer B**Marks** 1

8	Question Description	Two-fifths of the voters promise to vote for P and the rest promise to vote for Q. Of these, on the last day, 15% of the voters went back on their promise to vote for P and 25% of voters went back of their promise to vote for Q, and P lost by 2 votes. Then the total number of voters is:
	A	100
	B	110
	C	90
	D	95
	E	None of the above
	Correct Answer	A
	Marks	1

9	Question Description	Students rank the business schools based on the following factors: Average salary of a fresh graduate, student to faculty ratio, terminal degree of faculty members, and institutional facilities. In their final ranking school A is ranked higher than school B. Which of the following will ensure that school A is ranked higher than school B?
	A	The average salary of fresh graduates from school A is 60% less than the average salary of fresh graduates from school B.
	B	The average salary of fresh graduates from school A is 80% more than the average salary of fresh graduates from school B.
	C	All the faculty members in school A have a doctoral degree while in school B only 50% of the faculties have a doctoral degree.
	D	In all the factors school A is marginally better than school B.
	E	None of the above
	Correct Answer	D
	Marks	1

Question Description

In each question below are given three statements followed by three conclusions numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All flowers are roses.

No rose is a lily.

Some lily are plants.

Conclusions:

I. All roses being flowers is a possibility.

II. All plants being lily is a possibility.

III. Some lily are not roses.

A

Only I and III follow

B

All, I, and II follow

C

Only III follows

D

All follows

E

None of the above

Correct Answer

D

Marks

34

Question Description

Meteorite explosions in the Earth's atmosphere as large as the one that destroyed forests in Siberia, with approximately the force of a twelve-megaton nuclear blast, occur about once a century.

The response of highly automated systems controlled by complex computer programs to unexpected circumstances is unpredictable.

Which of the following conclusions can most properly be drawn, if the statements above are true, about a highly automated nuclear-missile defense system controlled by a complex computer program?

A Within a century after its construction, the system would react inappropriately and might accidentally start a nuclear war.

B The system would be destroyed if an explosion of a large meteorite occurred in the Earth's atmosphere.

C It would be impossible for the system to distinguish the explosion of a large meteorite from the explosion of a nuclear weapon.

D It is not certain what the system's response to the explosion of a large meteorite would be, if its designers did not plan for such a contingency.

Comprehension

Read the following passage and answer the question below

In spite of teaching that Adam's fall had, to some extent, spoiled God's plan for mankind, there was a widely held belief in universal order and harmony. The stars and planets were still in accord with the divine plan and it was believed that they gave glory to God by the music of their movement. Before Adam's fall, man too could hear heavenly harmonies. Although, the fall put an end to this ideal state, the heavenly bodies continued to influence life on earth. Just as the sun gave warmth and light, just as the moon caused the tidal movement of the seas, so also did the stars and planets affect the earth and its inhabitants.

Question Description

The tone of the passage implies that the widely held popular beliefs were

A

meant for the God-fearing people

B

confined to those devotionally inclined

C

meant for the irrational and brainwashed

D

based on astrological inclination

E

Comprehension

Answer the questions on the basis of the information given below.

In an examination, there are 100 questions divided into three groups A, B and C such that each group contains at least one question. Each question in group A carries 1 mark, each question in group B carries 2 marks and each question in group C carries 3 marks. It is known that the questions in group A together carry at least 60% of the total marks.

Question Description

If group C contains 8 questions and group B carries at least 20% of the total marks, which of the following best describes the number of questions in group B?

A

11 or 12

B

12 or 13

C

13 or 14

D

14 or 15

E

None of the above

Correct Answer

B

Marks

50

Comprehension

Refer to the data below and answer the questions that follows.

All the roads of city Z are either perpendicular or parallel to one another. The roads are all straight. Road, A, B, C, D and E are parallel to one another. Roads G, H, I, H, J, K, L and M are parallel to one another.

- i. Road A is 1 mile east of road B
- ii. Road B is $\frac{1}{2}$ mile west of C.
- iii. Road D is 1 mile west of E.
- iv. Road G is $\frac{1}{2}$ mile south of H.
- v. Road I is 1 mile north of J
- vi. Road K is $\frac{1}{2}$ mile north of L.
- vii. Road K is 1 mile south of M

Question Description

Which of the following statements is necessarily true?

A

I is 1 mile north of L

B

D is 2 miles west of B

C

E and B intersect

D

M is 1.5 miles north of L

E

None of the above

Correct Answer

D

Comprehension

Refer to the data below and answer the questions that follows.

All the roads of city Z are either perpendicular or parallel to one another. The roads are all straight. Road, A, B, C, D and E are parallel to one another. Roads G, H, I, H, J, K, L and M are parallel to one another.

- i. Road A is 1 mile east of road B
- ii. Road B is $\frac{1}{2}$ mile west of C.
- iii. Road D is 1 mile west of E.
- iv. Road G is $\frac{1}{2}$ mile south of H.
- v. Road I is 1 mile north of J
- vi. Road K is $\frac{1}{2}$ mile north of L.
- vii. Road K is 1 mile south of M

Question Description

If E is midway between B and C, then which of the following statement is false?

A

D is less than 1 mile from B.

B

C is less than 1.5 miles from D.

C

Distance from E to B added to distance of E to C is $\frac{1}{2}$ mile.

D

D is 2 miles west of A

E

None of the above

Correct Answer

D

Comprehension

During a four-week period, each one of seven previously unadvertised products – G, H, J, K, L, M and O – will be advertised. A different pair of these products will be advertised each week. Exactly one of the products will be a member of two of these four pairs. None of the other products gets repeated in any pair. Further, the following constraints must be observed:

J is not advertised during a given week unless H is advertised during the immediately preceding week.

The product that is advertised twice is advertised during week 4 but is not advertised during week 3.

G is not advertised during a given week unless either J or O is also advertised that week.

K is advertised during one of the first two weeks.

O is one of the products advertised during week 3.

Question Description

Which one of the following could be the schedule of the advertisements?

A

Week 1: G, J; week 2: K, L; week 3: O, M; week 4: H, L

B

Week 1: H, K; week 2: J, G; week 3: O, L; week 4: M, K

C

Week 1: H, K; week 2: J, M; week 3: O, L; week 4: G, M

D

Week 1: H, L; week 2: J, M; week 3: O, G; week 4: K, L

E

None of the above

Correct Answer

B

Comprehension

Read the following passage and answer the questions

There are six Indian cricketers, namely Virat, Rohit, Dhoni, Raina, Ishant, and Rahane. Among them two are batsmen, while others are wicket keeper, fast bowler, all rounder and spinner, though not necessarily in the same order. Also, each of these cricketers belongs to a different city, namely Chandigarh, Delhi, Ranchi, Chennai, Mumbai and Jaipur.

I. Virat, a fast bowler, is neither from Chennai nor from Jaipur.

II. The one who is from Mumbai is a spinner. Neither Raina nor Rohit is from Mumbai.

III. Rohit is the all-rounder of the team and is from Jaipur.

IV. Virat is not from Ranchi while Rahane is not from Chennai.

V. Raina the wicket keeper is from Delhi. Neither Dhoni nor Rahane is a spinner.

Question Description

Who among the following is from Chandigarh?

A

Dhoni

B

Virat

C

Ishant

D

Rahane

E

None of the above

Correct Answer

B
