	Correct Answer	D
	Marks	1

51

Comprehension

Read the following passage and answer the questions given below: -

Arnold Toynbee said about Ramakrishna that 'his religious activity and experience were comprehensive to a degree that had perhaps never before been attained by any other religious genius in India or elsewhere'. You will hear only echoes of such words if you go through some recent works on Ramakrishna published in the West. What is most important in all works for the dissemination of Vedanta philosophy in its bearings on the idea of universal religion is to affirm, without any reservation, that this ideal does not touch any religion as it exists but only urges a universal approach to all religions. By universal religion, Vivekananda meant this mingling of faiths and he thought it was Vedanta, particularly Advaita Vedanta, which could bring about this mingling of spiritual tunes in a grand harmony of faiths.

Question Description

The statement, 'his religious activity and experience were comprehensive to a degree that had perhaps never before been attained by any other religious genius in India or elsewhere', implies that as a religious genius, his religious activity and experience were

- A** probably the first, and so far, the most comprehensive in the world
- B** likely to be the most comprehensive in India and elsewhere
- C** those which few others had attained in the past in India or elsewhere
- D** perhaps the best and comprehensive attainments in the world.
- E** None of the above

Correct Answer

A

Marks

1

Question Description

Directions: An alphanumeric machine accepts letters as input and delivers output in form of numbers through different steps. Each step is obtained by applying an operation different from the previous step. Each step gives output taking input from the previous step. Below mentioned is an illustration of the same.

Input : upsurge beyond difficulties attribute their findings life shower

Step 1: 9 4 25 16 4 4 4 4

Step 2: 13 8 29 20

Step 3: 16 12

Step 4: 12

Step 4 is the last step of the output.

Find the different steps of output for the following input.

Input : small expectations large results transform normal into abnormal

What is the cube of the final output

A

64

B

216

C

125

D

Question Description

Directions: Read the given information carefully and answer the questions given beside:

Eight persons namely Aadit, Babar, Chahel, Danvir, Etash, Faisal, Gagan and Hardik were standing in different directions with respect to each other. Each of them scored different marks in the English subject among 34, 39, 43, 48, 54, 63 and 70 but not necessarily in the same order. Only two of them have equal marks.

Aadit is 12m west of Etash and his mark is 54. Only Chahel scored the highest mark and stands 15m west of the person, whose marks is 63. Babar stands 8m north of Hardik, who scored 34 marks. Hardik is 20m south-west of Etash. The mark scored by Etash and the person, who stands 15m west of Chahel is same. Gagan is 15m west of the person, whose marks is 43. The one who scored third lowest mark is 16m north of Chahel. Danvir is not to the north-west of Aadit. Etash's mark is more than 43. Babar scored more marks than Aadit. Aadit, Babar and Hardik are standing in a vertical line.

How many persons scored more marks than the one who is exactly to the east of Aadit?

A

Two

B

Three

C

Four

D

Five

E

None of the above

Correct Answer

B
