51

Comprehension

Read the following passage and answer the questions given below: -

Science can certainly contribute its bit towards the development of a culture or towards shaping of subjective reality. In the past, only the poets, the artists and the philosophers, particularly the poets, did this. Their languages have been metaphoric and symbolic. They demand interpretation and re-interpretation to get to the underlying meaning. In future too this would continue to be the dominant pattern of further development. Science may explode the myths about the moon, but poets will continue to create new myths and legends, and, the society its new images, new rituals and new taboos. In his book, *Myths to Live By* (1973), Joseph Campbell has argued this theme in detail. Playwright Ibsen and Psychologist Jung were of the opinion that human beings will always need life-supporting myths.

Question Description

Myths and legends are significant because

A

speak through metaphors and symbols

B

they are essential for human life

C

give rise to new images, rituals and taboos

D

science can explode them

E

None of the above

Correct Answer

B

Question Description

Directions : In question, some statements are given, followed by two conclusions I and II. You have to consider the statements to be true, even if they seem to be at variance from commonly known facts. You have to decide which of the given conclusions, if any, follow from the given statements. Indicate your answer.

Statements:

Only Rama is a clerk.

100% honest are Rama.

Conclusions:

I. All Rama are honest.

II. All clerks being honest is a possibility.

A

Only conclusion II follows

B

Either conclusion I or II follows

C

Only conclusion I follows

D

Neither conclusion I nor II follows

E

None of the above

Correct Answer

D

68

Question Description

Directions: A number arrangement machine when given an input line of numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: 23 47 52 69 71

Step I: 16 38 20 64 17

Step II: 16 38 64 20 17

Step III: 21 33 30 06 24

Step IV: 06 21 24 30 33

Step V: 11 27 31 38 42

Find the different steps of output using the above mentioned logic for the following input.

Input: 56 29 34 72 41

Which of the following numbers comes in the middle in Step II?

A 56

B 40

C 48

D 74

E None of the above

Correct Answer B
