In which of the following regions of India are shale gas resources found?

1.Cambay Basin

2.Cauvery Basin

3.Krishna-Godavari Basin

Select the correct answer using the code given below.

A

1 and 2 only

B

3 only

C

2 and 3 only

D

1, 2 and 3

E

None of the above

Correct Answer

D

Marks

1

4

Question Description	What is the primary factor driving the loss of biodiversity?
A	Habitat destruction
B	Climate change
C	Invasive species
D	Overexploitation
E	None of the above
Correct Answer	A
Marks	1

5

Question Description	Who among the following was not associated with Kakori conspiracy case?
A	Rajendra Lahiri
B	Ashfaquallah Khan
C	Thakur Roshan Singh
D	Shaukat Usmani
E	None of the above
Correct Answer	D
Marks	1

6

Question Description

Consider the following States:

Andhra Pradesh

Kerala

Himachal Pradesh

Tripura

How many of the above are generally known as tea-producing States?

A

Only one State

B

Only two States

C

Only three States

D

All four States

E

None of the above

Correct Answer

C

Marks

1

7

Question Description**Consider the following pairs-****Tribe State****1. Limboo (Limbu) Sikkim****2. Karbi Himachal Pradesh****3. Dongaria Odisha****4. Bonda Tamil Nadu****Which of the above pairs are correctly matched?****A**

1 and 3 only

B

2 and 4 only

C

1, 3 and 4 only

D

1, 2, 3 and 4

E

None of the above

Correct Answer

A

Marks

1

8

Question Description	Jawaharlal Nehru's reluctance to re-organise states on the linguistic basis had the support of which of the following?
A	Vallabhbhai Patel, C. Rajagopalachari
B	Mahatma Gandhi, Vallabhbhai Patel

E	None of the above
Correct Answer	B
Marks	1

31

Comprehension

Read the following passage and answer the questions below:

It is believed by many that the pharma industry in our country preys on pestilence for profits. As the primary sector thrives under the benevolent monsoons, the food grain production may hike by hundreds of million tonnes. The generous use of pesticide is said to be a key factor in this race for a quantum jump in agricultural productivity in the country. On the basis of target species pesticides can be divided into four broad categories, namely, insecticides, herbicides, fungicides and rodenticides. Presently, insecticides contribute to nearly 75 per cent of the turnover of the pesticide industry. But in the West the trend is different: fungicides and herbicides account for the largest share of consumption in those countries.

Question Description

In the above passage “pestilence” is used to imply

A

rise in bubonic plague

B

increase in irritation

C

proliferation of pests

D

growth of disease

E

None of the above

Correct Answer

C

Marks

1

Comprehension

Read the following passage and answer the questions below:

The World Health Organization is popularly known as W.H.O. in brief. It is a specialized agency of the United Nations and was established in 1948. International health workers can be seen to be working in all kinds of surroundings: in deserts, jungles, mountains, coconut groves, and rice fields. They help the sick to attain their health and the healthy to maintain their health. This global health team helps the local health workers in stopping the spread of what are called the communicable diseases, like cholera. These diseases can be spread from one country to another and so can be a threat to world health. W.H.O. assists different national health authorities not only in controlling diseases but also in preventing them. Total prevention is possible in a number of ways altogether in a number of ways such as vaccination, spraying of houses with poisonous substances which kill disease-carrying insects.

Question Description

Find a word or a phrase from the passage that means ‘contagious or infectious’

A

communicable

B

cholera

C

disease

D

disease carrying insects

E

None of the above

Correct Answer

----	-----------------------------	--

A	100 % in option A
B	36 % in option B and 64 % in option C
C	64 % in option B and 36 % in option C
D	1/3 in each of the three options
E	None of the above
Correct Answer	B
Marks	1

Question Description

Question below is given a statement followed by three courses of action numbered (A), (B) and (C) . A course of action is a step or administrative decision to be taken for improvement, follow-up or further action in regard to the problem, policy, etc. On the basis of the information given in the statement, you have to assume everything in the statement to be true, then assume everything in the statement to be true, then assume everything in the statement to be true, then courses of action logically follow(s) for pursuing.

Statements:

Uncontrolled quarrying activity in the neighbourhood has caused many landslides and also cracks to develop in some buildings in the area which has caused hardship to all the people living in the area.

Courses of action:

A. The Govt. should immediately issue notices to all concerned to stop quarrying activity in the area till further instructions.

B. Those who are responsible for quarrying should immediately be arrested and put behind bars.

C. The Govt. should set' up a team of officials to gather all the facts and submit a report-which will enable the Govt. to take an' appropriate decision in this regard.

A Only (A)

B Only (B)

C Only (C)

D Only (A) and (C)

E None of the above

Correct Answer D

Marks 1

Question Description

A word and number arrangement machine when given an input line of words and numbers rearranges them following a different rule in each step. The following is an illustration of input and rearrangement.

Input: always begin from bottom mount high

Step I: aabdho eimty inou ggnooy gmnou isst

Step II: 3 44 31 23 2 49

Step III: 48 18 72

Step IV: 3 9

Step V: 144

Step V is the last step of the arrangement.

Following the same pattern solve the given input.

Input: fear creates demons only hope defeat

What will be the value obtained in final step of the arrangement?

A 36

B 26

C 81

D 49

E None of the above

Correct Answer	C
Marks	1

Question Description

Direction: In each of the following question, there is a certain relationship between two given pair on both side of ':' . One word is given on another side of ':' while another word is to be found from the given options, having the same relation with this word as the words of the given pair . Choose the correct word from the following options.

DBU : EEZ : : CJH : ?

A DMM

B DNN

C DMN

D DNM

E None of the above

Correct Answer A

Question Description	How many pairs of letters are there in the word NURSING which have as many letters between them as in the alphabet?
A	One
B	Three
C	Five
D	Six
E	None of the above
Correct Answer	B
Marks	1

Question Description

Directions: Each of the following consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Six batsmen are doing net practice on six days of a week starting from Monday to Saturday. Only one player practises on one day. Dhoni practises on which day?

Statement I: Virat practises just before Dhoni, who is not the last one to practice. Rohit practises on the first day of the week immediately followed by Shikhar.

Statement II: Rohit and Virat practise at a gap of one day such that Rohit practises on Monday. Dhoni practises just before Rahul.

A

If the data in statement I is sufficient to answer the question.

B

If the data in statement II is sufficient to answer the question.

C

If the data in either statement I or statement II is sufficient to answer the question

D

If the data in statement I and statement II together are not sufficient to answer the question.

E

None of the above

Correct Answer

D

Question Description

A person starts from point A, walks 5m towards south and reaches point B. He then turns left and walks 8m and reaches point C. He then takes a right turn and walks 6m. He takes a final right turn and walks 8m to reach point D. What is the distance between point C and D?

A

13m

B

12m

C

10m

D

15m

E

None of the above

Correct Answer

C

Question Description

Directions: In these questions, relationship between different elements is shown in the statement.
The statements are followed by two conclusions. Choose the correct answer given below:

Statements: $Y \geq P = O$, $P < R \leq J$

Conclusions: $R > Y$, $J > O$

A

Only conclusion I follows

B

Only conclusion II follows.

C

Both conclusion I and II follow.

D

Neither conclusion I nor conclusion II follows.

E

None of the above

Correct Answer

B

Marks

1

Question Description

Directions: In each question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts.

Statements:

All floors are buildings.

All doors are buildings.

Some buildings are not houses.

Conclusions:

I. Some floors are not doors.

II. Some houses may not be buildings.

A

If only conclusion I follow

B

If only conclusion II follow

C

If neither conclusion I nor conclusion II follows

D

If both the conclusions follow

E

None of the above

Correct Answer

B

Question Description

If there is an oil-supply disruption resulting in higher international oil prices, domestic oil prices in open-market countries such as the United States will rise as well, whether such countries import all or none of their oil.

Which of the following conclusions is best supported by the statement in the passage?

A

Domestic producers of oil in open-market countries are excluded from the international oil market when there is a disruption in the international oil supply.

B

International oil-supply disruptions have little, if any, effect on the price of domestic oil as long as an open-market country has domestic supplies capable of meeting domestic demand.

C

The oil market in an open-market country is actually part of the international oil market, even if most of that country's domestic oil is usually sold to consumers within its borders.

D

Open-market countries that export little or none of their oil can maintain stable domestic oil prices even when international oil prices rise sharply.

E

None of the above

Correct Answer**C****Marks****1**

Question Description

Directions: Read the following information carefully and answer the questions given beside.

Certain number of persons (that does not exceed 15) are standing in a straight linear row facing towards the north. 5 persons stand between B and E, who is third to the left of A. U is to the right of A. Not more than 3 persons stand between U and T. B is third to the left of U. I is fifth to the right of T. 2 persons stand between E and F, who is sitting at the extreme left end of the row.. Three persons stand between A and L, who is towards the right of E.

What is the position of E with respect to L?

A 4th to the left

B 7th to the left

C 6th to the right

D 5th to the left

E None of the above

Correct Answer B
